

Did You Know?

If you think you know
Mid-Columbia Medical Center,
think again as we redefine
health care in the Gorge
in the 21st century.

- The **Breast Center** at MCMC is accredited by the American College of Surgeons' National Accreditation Program for Breast Centers and is the only breast center in the Gorge **accredited** by the Commission on Cancer.
- We offer a vast array of **occupational health services** to local businesses, all designed to help employers manage workplace injuries and establish and maintain a healthy work environment that reduces the chances of employee injury, illness and disability.
- The **PREVENT program** at MCMC helps people make the dietary and lifestyle changes necessary to live a healthier life.
- Each year the MCMC **emergency department** sees more than 9,500 patient visits, providing 24/7 care people need right away for life-threatening conditions, including heart attack, stroke and severe trauma.
- In 2020 MCMC opened the first and only **Immediate Care Center** in The Dalles.
- We believe in **promoting trust** through open, transparent and respectful communication between patients, their families and members of the health care team.
